Controlled conditions

Development of the student's design folder and manufacture of the product(s) must take place under controlled conditions. Students will be supervised by a teacher at all times.

Students' work must be collected in at the end of the lesson and handed back at the beginning of the next lesson. Students' work must be produced individually.

Feedback control

Teachers are allowed to provide regular, formative feedback throughout the creative design process. Student progression should be supported by the centre's own Assessment for Learning (AFL) strategies.

Demonstrations of practical activities are allowed in order to develop knowledge, understanding and skills and to identify health and safety issues relating to specific tools, equipment and processes.

Collaboration control

Where group work occurs, evidence of individual contributions must be clearly identified and recorded.

Resources

Access to resources is determined by those available to the centre.

Quality of written communication (QWC)

QWC will be assessed throughout the student's design folder. This will assess students on their ability to organise information clearly and coherently, using specialist vocabulary when appropriate.

Tasks

Suggested textiles products are:

1. **Accessories**, eg
 - A range of products that can be used to carry items.
 - Range of items to restyle an outfit.
2. **Garments**, eg

Centres can contextualise the task(s) to best suit their specific circumstances, which includes the availability of and access to resources.

Task taking

All work, with the exception of research and preparation, must be done under informal supervision. Research and preparation may be completed under limited supervision.

Task marking

Marking of the tasks will be carried out by teachers and moderated by Edexcel.
