AS and A2 levels are modular qualifications, and you can take exams for individual units at different times. Question papers may vary slightly in difficulty from year to year. For example, a mark of 53 in one paper in a January exam session might represent the same level of achievement as a mark of 49 in the following summer exam session.

There is not a chart to work out the A* grade. This is because it depends on the value of each unit as follows: To be awarded a grade A* at GCE A level, a candidate must:

1. Achieve a grade A overall for the A level. This can also be described as achieving 80% of the total uniform marks.

AND

2. Achieve 90% of the combined uniform mark total for the A2 units.

For example:

For a four-unit A level, a candidate must achieve at least 320 of the 400 total uniform marks and 180 of the 200 combined uniform mark total for the A2 units.

For a six-unit A level, a candidate must achieve at least 480 of the 600 total uniform marks and 270 of the 300 combined uniform mark total for the A2 units.

Please note:

- i) The above rules are applied to the best available result for each AS and A2 unit; for each unit, this best available result may be achieved at the first or subsequent sitting.
- ii) Grade A* is not available at unit level or for AS qualifications.
- iii) Please see the Edexcel website for an explanation of how the A* is calculated for GCE Mathematics, Chinese, Applied GCE Double Awards and Applied GCE Single Awards.
