

Health and Social Care (Social Care)

Student Guide Level 3 BTEC National Certificate

What is the BTEC National Certificate in Health and Social Care (Social Care)?

The BTEC National Certificate in Health and Social Care (Social Care) will build and develop the necessary practical skills and understanding to provide learners with a firm grounding in the principles of social care, enabling progress to employment or higher level education. Work experience and links to the workplace form a central part of the programme.

The qualification is designed to be flexible so that it reflects individual career aspirations and the teaching strengths of centres, therefore making it possible to enter a specific vocation or to explore more specialist aspects of job roles within the sector. There will be an emphasis on employment opportunities, so that students can choose to progress into a specific area of work, and if already in employment, move on to a more responsible position within this field.

There are nine compulsory core units plus a range of specialist areas (to total 720 guided learning hours). Students have the opportunity of gaining a broad understanding of the sector and a specialist understanding of social care. Please note that the units studied may vary to meet local or learner needs.

Where will this qualification take me?

Employment opportunities

With the international recognition of BTEC courses such as this, you can progress straight into employment. If successful there are a variety of potential careers that you can explore, all of which will benefit from your studies, such as a care worker or school nurse.

Further vocational and academic qualifications

The BTEC National Certificate in Health and Social Care (Social Care) has the equivalence of two GCE A Levels, and it is possible for you to progress further into higher education, as successful BTEC National qualifications give UCAS points for university applications.

How long will it take me to complete this qualification?

The length of the course is dependant on the centre. Normally, it will take two academic years to complete but it can be studied for longer.

What are the entry requirements?

The entry requirements for the Edexcel Level 3 BTEC National Certificate in Health and Social Care (Social Care) are laid down by individual centres. Fundamentally you should have a broad education including, for example, a BTEC First in Health and Social Care and/or four GCSEs (graded C or above) and, in addition, the interest and potential to succeed in achieving the qualification.

How can I find out more?

Ask your careers teacher or adviser or your local school or college for more information or see the Edexcel website – www.edexcel.org.uk/btec
