

GCE Advanced Biology (Salters-Nuffield) Unit 6135 / 02

May 2007 / 2008 / 2009

advancing learning, changing lives

Coursework Investigation
Consultancy Service

COURSEWORK INVESTIGATION CONSULTANCY SERVICE

During the year, a centre may send up to **THREE EXAMPLES** of assessed reports electronically to the Qualification Delivery & Awarding Manager for GCE Biology (SNAB) at damian.riddle@edexcel.org.uk.

You may wish to send one piece of work that you think is high scoring i.e. 30-40 marks out of 40 and one/two pieces of work that you think are in the mid-range i.e. 18-28.

It is often much simpler, with large files, to send the reports on CD can be sent to QDAM for GCE Biology (SNAB), 5th Floor, Edexcel, 190 High Holborn, London WC1V 7BH.

Your assessments should be recorded, with reasons and other evidence, using the INFORMATION GRID on the back page of this pamphlet, which can also be found on the SNAB A2 homepage: <http://www.edexcel.org.uk/quals/gce/biology/adv/9048/>

The work will be sent to a Senior Moderator, who will usually reply within two weeks, but up to four weeks should be allowed. You will benefit most from this service if the information grid is fully completed, as the Senior Moderator will be able to focus on your comments.

NB that the Senior Moderator will be unable to comment on work that has not been assessed.

You will not be charged a fee for this service.

The samples can be sent at any time during the year but work intended for submission in May should be sent by **31st March**.

**Please try to send the work on CD. This may not be returned to you
so please keep a copy on disc within the centre.**

Please note that work submitted to EDEXCEL may be used as exemplar material (as is the case with coursework submitted for moderation).

Preparing students for GCE Salters-Nuffield Biology

Full details of all support for practical and written assessments in AS and A2 are available on the Edexcel website at <http://www.edexcel.org.uk/quals/gce/biology>

GCE 2008

Our new Biology specification for first teaching in September 2008, along with Specimen Assessment Material, can be found on the GCE 2008 website at <http://developments.edexcel.org.uk/gce2008>
