Dear Colleague

Edexcel Level 3 and 4 NVQs in Health and Social Care - Corrections to Published Materials

We have identified some errors in the Edexcel NVQs in Health and Social Care CD-Rom (code N015885). The majority of these errors relate to the Level 3 NVQ material, additionally a single error has been identified in the Level 4 material.

I attach a list of the errors and amendments that have been made, this list also includes the amendments to unit 349 referred to in my earlier letter of 27 July 2005.

In our revision we have also included some amendments to the Level 3 NVQ material which we received from the Sector Skills Councils after accreditation.

The revised Edexcel Level 3 Logbook is available for download from the Edexcel website.

This is located at:

We have since reviewed our processes and introduced an extra stage of proofreading into the publishing process.

Please accept my sincere apologies for the inconvenience caused to you, your colleagues and your candidates by these errors.

Yours sincerely
