22nd October 2009

Dear Colleague

Level 3 NVQ in Health: General Healthcare Support

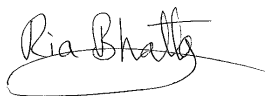

Issue 5 of the *Sector Guidance for Centres* (September 2009), for the Levels 2 and 3 NVQs in Health has now been published on the Edexcel website. This supercedes all previous versions.

Please note that there was an error in the previous versions, regarding the Level 3 NVQ in Health: General Healthcare Support pathway.

Out of the 10 competences required to achieve this pathway, no more than two from any other Level 3 pathway specific competences (other than perioperative care support) can be undertaken as part of this pathway. Centres and candidates are advised to familiarise themselves with the structure for this pathway, which has now been clarified. All changes in the *Sector Guidance for Centres: Issue 5* have been indicated with a sideline.

We apologise for any inconvenience caused by this error. If you have any queries about this qualification please contact customer services on: 0844 576 0026.

Yours sincerely

Ria Bhatta
Product Development Leader
