

Moderation training for Domain Assessors

In light of the success of our series of Domain Assessor Training events in summer and winter 2009 Edexcel has again been supported by the DCSF to deliver a free training day for all Domain Assessors.

Due to high demand the training, which originally covered the first 5 lines of Principal Learning, is being extended further to also include Project Qualifications and the Business, Administration & Finance line of learning.

This is an opportunity for Domain Assessors to access the key elements of the training that is provided for Edexcel Moderators on a selected number of units. By the end of the training day Domain Assessors will have a clear understanding of how learner work will be moderated, which will enable them to ensure that assessors within their consortium are assessing to the required standard.

The events will be run by the Edexcel Principal Learning and Projects Senior Moderating team and will cover the following areas:
the requirements of the specification
an introduction to the role of a Domain Assessor
annexe E and controlled conditions
the application of the marking grids and how to attribute marks within the three marking bands
moderation of learner work.

Some delegate feedback for previous series:

"Its a must attend event for all Domain Assessors"

"Excellent day"

"A very informative and supportive day, Thank You."

"Outstanding!!!"

"Practical guidance and clear focus for delivering practitioners"

To book your place on one of these free all-day events, sponsored by the DCSF, please send an email request to kevin.begbie@edexcel.com or telephone 0207 190 4530. Alternatively email your request to trainingbookings@edexcel.com, or book directly on to the event if you are an Edexcel Online user, or telephone Diploma Enquiries on 0844 576 0028
