Topic: How has the people’s perception of Graffiti changed from vandalism to a form of art?

Mark band 1	Mark band 2
<p><i>Project proposal form</i> As a whole, the information given is brief. Objectives may lack focus. General reasons are given for why they have chosen the project.</p> <p>Most of the key activities that need to be carried out are given, although they may not be given in a wholly appropriate order. The learner shows some identification of the resources required.</p> <p><i>Activity log</i> Limited information is included about the activities undertaken during the course of the project. There is some attempt to follow the agreed plan, and any changes to the plan are noted.</p>	<p><i>Project proposal form</i> As a whole, the information given is detailed and clear. In the objectives section, a question is clearly stated. Clear, specific and thoughtful reasons are given which justify the choice of project. Key activities that need to be carried out are given in an appropriate order. The learner describes clearly the resources required and what they will be used for.</p> <p><i>Activity log</i> Detailed and clear information is given about the activities undertaken during the course of the project. There is a clear attempt to follow the agreed plan, and changes to the plan are explained. Problems encountered are described and explanations given for how they were overcome.</p>
0-3 marks available for the work produced	4-6 marks available for the work produced
+ 0 marks if limited support given by tutor-assessor + 1 mark if learner works mainly independently

Topic: How has the people’s perception of Graffiti changed from vandalism to a form of art?

Level 2, AO3: Develop and realise

Mark band 1	Mark band 2
<p><i>Project outcomes that are mainly written</i></p> <p>Ideas are developed in a way that shows some understanding of the topic. There is an answer to the question, though this may not be clear. There is limited evidence of supporting arguments and limited consideration of alternative viewpoints or interpretations.</p> <p>The project is likely to be clear for the reader to understand. Information is generally presented in a logical order, with some structuring/connections between different parts of the text. The information within the project is generally relevant. There are some errors in the <u>use of language</u>¹, but these tend not to be intrusive and tend not to interfere with communication. The outcome includes most of the relevant features of <u>effective presentation</u>². An appropriate <u>style/register</u>³ is used in most places.</p> <p><i>Project outcomes that involve the creation of an artefact or design</i></p> <p>The artefact or design is produced and presented in an appropriate format. It is likely that the relevant <u>resources</u>⁴ obtained by the learner are used with some success in realising the finished project outcome in a way that addresses the project objectives. Some understanding of the topic is apparent. There is some evidence of development of ideas and that alternative designs have been considered. There are several of the relevant features of <u>effective presentation</u>⁵ in the evidence produced and it is generally clear what has been done and why.</p>	<p><i>Project outcomes that are mainly written</i></p> <p>Ideas are developed in a way that shows good understanding of the topic. There is a clear answer to the question with some supporting arguments and some consideration of alternative viewpoints or interpretations.</p> <p>The project is likely to be clear for the reader to understand. Information is presented in a logical order, with clear and effective structuring/connections between different parts of the text. The information within the project is relevant. There are few errors in the <u>use of language</u>, and these are not intrusive and do not interfere with communication. The outcome includes the relevant features of <u>effective presentation</u>. An appropriate <u>style/register</u> is used consistently.</p> <p><i>Project outcomes that involve the creation of an artefact or design</i></p> <p>The artefact or design is produced and presented in an appropriate format. It is likely that the relevant <u>resources</u> obtained by the learner are used consistently successfully in realising the finished project outcome in a way that addresses the project objectives. Good understanding of the topic is apparent. There is clear evidence of careful and well thought out development of ideas and that alternative designs have been considered carefully. The relevant features of <u>effective presentation</u> are used consistently and it can be understood without difficulty what has been done and why.</p>

Topic: How has the people’s perception of Graffiti changed from vandalism to a form of art?

Level 2, AO4: Review

Mark band 1	Mark band 2
<p>Overall the review is generally well structured, but basic. The learner will have drawn their own brief conclusions, with limited evidence provided to support these.</p> <p>The learner can identify which objectives were or were not met and give reasons for success or lack of it. There is some attempt to identify what they have learned and the skills used during the project. They assess how well they performed.</p> <p>There are limited ideas for what they could do differently next time.</p> <p>There are ideas for follow up work in the same or other areas of study or interest.</p>	<p>Overall the review is well structured, clear and developed. The learner will have drawn their own detailed conclusions with firm evidence provided to support these.</p> <p>The learner can identify which objectives were or were not met and give convincing reasons for success or lack of it. They describe what they have learned and the skills used during the project. They assess how well they performed, incorporating feedback from others</p> <p>There are realistic ideas for what they could do differently next time, with reasons why.</p> <p>There are clear and realistic ideas for follow up work in the same or other areas of study or interest.</p>

Topic: How has the people's perception of Graffiti changed from vandalism to a form of art?

Assessment Object	Moderator Comments	Marks
A01	<p>The learner gives a research question 'How has peoples perception of Graffiti changed from vandalism to a form of art?' Two project objectives are given that are relevant to the project title .A reasonable rationale is given although it could be more detailed.</p> <p>Section 3 is very brief and lacks both depth and focus. The timescale given does not reflect the 60 GLHs for this qualification.</p> <p>Milestones do not set any activity targets.</p> <p>Section four is brief.</p> <p>The activity log is not submitted on Edexcel paperwork and is very superficial. There are no problems encountered or any evidence for problem solving.</p> <p>There is further information relevant to A01 in text format but this is mainly repetitive of information already given on the PPF. Further information for A01 is given in the project plan. This should be on the PPF</p> <p>On the whole the evidence for AO 1 can be put at the top of mark band 1.</p>	Mark band 1.
A02	<p>The learner researches secondary information from a variety of internet sites. This information is used to develop the discussion but only a small number of the sources given in the bibliography are referenced in the report so it is not clear how many of the sources found are used or why the rest were not used in the discussion.</p> <p>There is no discussion regarding validity or reliability of secondary sources.</p> <p>The learner does develop a questionnaire to gain primary sources of information. This information is used to develop the report although the collation of information from these primary sources is brief.</p> <p>Documentary sources are identified in a bibliography, and this is clear enough for the sources to be retrieved.</p> <p>This evidence attracts marks just into mark band 2. For higher mark band 2 the secondary sources would need to be used more extensively and there should be comments on reliability and validity regarding the secondary sources.</p> <p>Research is carried out using a wide range of sources, using at least two types of information and where appropriate both primary and secondary research.</p> <p>The research carried out is consistently relevant to the project objectives. The information gathered is applied well to the project outcomes but more of the secondary sources highlighted in the bibliography could be used.</p>	Mark band 2.

Topic: How has the people's perception of Graffiti changed from vandalism to a form of art?

A03	<p>The learner writes an interesting review of a range of aspects related to Graffiti. However, the discussion does not focus on actually answering the main project title of 'how has perception of Graffiti changed from vandalism to a form of art? Ideas are developed in a way that' shows some understanding of the topic and some conclusions are drawn but these are not all totally focussed on the project title. One relevant conclusion is drawn that states 'people's perception has changed because Graffiti is now appearing in art galleries.'</p> <p>There is limited evidence of supporting arguments and limited consideration of alternative viewpoints or interpretations. The project needs to be more fully developed in order to attract higher marks. Marks just into mark band 2 are relevant here.</p>	Mark band 2.
A04	<p>The learner gives a very brief review of their project.</p> <p>There is no explicit discussion regarding what project objectives were met or not met, what knowledge was gained and how the project could be further developed.</p> <p>Marks in mark band 1 are relevant here. There is no overall assessment of what has been achieved and the learner does not use any feedback from others to review the success of the project.</p>	Mark band 1.
