

EDI Results

If you experience difficulties importing EDI results into your centre MIS (management information system) we have a dedicated team to support your EDI processes. We have produced this document to assist with common queries.

EDI Schedule

We will issue EDI results in the JCQ format version 14. The release schedule for November 2011 is as follows:

Series	Contents	Filename (nnnnn is your centre number)	Release date (from 00:01) via your VAN provider*	Results may be issued to students (from 00:01)
November 2011	Functional Skills	Rnnnnn14.X02	22/12/2011	22/12/2011
November 2011	GCSE and International GCSE	Rnnnnn10.x01	11/01/2012	12/01/2012

We will issue EDI results for you to import into your MIS regardless of the entry method. For example, if you made additional unit entries using Edexcel Online, these results will be in the EDI file.

Haven't received a file?

You can contact us by telephone or email us at eprocessing@edexcel.com.

We send the files to you via VAN providers, if the file is not transferring correctly their contact details are as follows:

VAN Provider	Website	Contact numbers
AVCO	www.avcosystems.com	01753 213700
Redstone webXchange	www.webxchange.co.uk	0845 2000 150
RM SecureNet	www.ifl.net/securenet	08709 202202

Unable to import a file?

Your MIS Supplier may be able to help you to import the file. Their contact details are at www.edexcel.com/edi under the link called "specific edi support for MIS software packages".

If you need current basedata, you can download it from www.edexcel.com/basedata. The basedata includes QANs which are also available on our website www.edexcel.com/qans.

Ensure UCIs and ULNs are up to date

For learners studying towards the Diploma and Diploma component qualifications such as Functional Skills, we attach ULNs to learner records on our IT systems. This is so that we can send achievement data to the Diploma Aggregation Service (DAS).

If you have supplied us with a ULN or UCI in any other way than EDI then this data may not be up to date on your MIS. If this is the case, then you may have problems when importing the results. To resolve this, you will need to update your MIS with the data that appears in the results file.

There are two options to identify ULNs and UCIs and input these into your MIS. The first option is to view the ULNs and UCIs on Edexcel Online:

- 1) Log into Edexcel Online (www.edexcelonline.com) and select the relevant qualification area tab
- 2) Select 'candidates' from the left-hand menu and click search by candidate
- 3) Select the appropriate session and key in the candidate number of the learner whose ULN or UCI you require and select 'next'

The screenshot displays the Edexcel Online interface for candidate search. At the top, the Edexcel logo and tagline 'advancing learning, changing lives' are visible. The page includes a navigation bar with links for Home, Mailbox, Edit My Account, and Ask a question. A 'Log-out' link is also present. The main content area shows the 'Candidate Search' form, which is currently set to search for candidates in the 'June 2010' session, under the 'Any Specification' category. The candidate number '4455' is entered in the 'Candidate Number' field. Other fields include 'UCI Number', 'Firstname', 'Lastname', 'Sex' (set to 'Any'), and 'Date of Birth' (with a placeholder '(dd/mm/yy)'). A 'Next' button is located below the form. A note at the bottom of the form states: 'If the Specification you are looking for is not on this list, then there are no entries for that specification at your centre.'

A pop-up screen will provide the candidate details including the UCI or ULN.

- 4) Key the ULNs into your MIS
- 5) Import the EDI results file

The second option is to use the EDI file:

- 1) Locate file on your network
- 2) Right click on file and select 'open with'
- 3) We recommend you choose 'Notepad' from the list

This is how the file will look in Notepad (apart from the colour highlighting, which has been added for ease of explanation):

```
R19999910BG010SEDEXCEL 14
R39999910BG10004WC1V 7BH
R5999990001999990010001G1234567890 5382H U052
R5999990001999990010001G1234567890 5009 U000X
```

Note the **centre number**, **board code**, **series code and year fields** and the **JCQ version** in the header lines (R1 and R3). The first R5 line contains the actual results, note the **centre number**, **candidate number**, **UCI**, **unit and UMS**. The second R5 line has a **unit and an absence**. **The ULN is here**.

- 4) Copy and paste the ULN into your MIS
- 5) Import the file into your MIS

If you continue to have issues with UCIs, please contact our Customer Services team and we can amend these as necessary.

If you continue to have issues with ULNs, please contact your MIS supplier helpdesk who should be able to assist you. If you do not know the number of your helpdesk, go to (www.edexcel.com/edi and select the 'Learn about specific MIS support for software packages' link on the right-hand side).

Obtain results from Edexcel Online

If you are unable import results you can still view and download results from Edexcel Online. To so this, log on, select the relevant qualification tab and then:

- Select 'results' from the right-hand list
- Select 'results - bulk download'
- Choose the appropriate session from the drop-down
- Choose 'Statements of Results' and click on 'submit'

The individual results notices will be delivered to your EOL mailbox within two hours. You can also select broadsheets, contributing unit results and component mark sheets using the results function.

You can also view unit or award level results as follows:

- Select 'results' from the right-hand list
- Select 'search'
- Choose the appropriate session from the drop-down
- Choose a 'specification'

You can either click 'search' or filter using the available fields.
