

June/ July 2011

Sector Bulletin:

Travel & Tourism (including Aviation)

A request for work has been submitted to qualification development to add the following unit J/601/3328 Special Interest holidays and independent travel as an optional unit within the Leisure and Business pathway of the Level 3 technical certificate in Travel Services. The unit already exists within the Tour operatives - head office pathway. Adding this unit would alleviate some of the issues employers have expressed to People 1st about the inflexibilities with the current structure. The work and updated structure should be completed by September 1st 2011.

SSC news– see hospitality section.
